have been talking about the **past**

to have prepared some time before  
the latest reported results make him  
think it probable that the "Wills"  
discovery may possibly be the  
of a certain kind of bacteria  
has been found that makes them  
stronger than others, and they  
may live in the general popula-  
tion and attack the system.  
The report also states in the paper  
that the Vegetarian League in  
London are conducting a daily cam-  
paign to attract those who feel con-  
vinced that the consumption of meat  
is injurious to health.
